## Question 1

Correct

Marked out of 1.00

Given an ArrayList, the task is to get the first and last element of the ArrayList in Java.

Input: ArrayList = [1, 2, 3, 4]

Output: First = 1, Last = 4

Input: ArrayList = [12, 23, 34, 45, 57, 67, 89]

Output: First = 12, Last = 89

**Approach:**

1. Get the ArrayList with elements.
2. Get the first element of ArrayList using the get(index) method by passing index = 0.
3. Get the last element of ArrayList using the get(index) method by passing index = size – 1.

**Answer:** (penalty regime: 0 %)

```

1 import java.util.ArrayList;
2 import java.util.Scanner;
3 public class FirstLastElement {
4     public static void main(String[] args) {
5         ArrayList<Integer> list = new ArrayList<>();
6         Scanner scanner = new Scanner(System.in);
7         int n = scanner.nextInt();
8         for (int i = 0; i < n; i++) {
9             list.add(scanner.nextInt());
10        }
11        if (!list.isEmpty()) {
12            int firstElement = list.get(0);
13            int lastElement = list.get(list.size() - 1);
14            System.out.println("ArrayList: " + list);
15            System.out.println("First : " + firstElement + ", Last : " + lastElement);
16        } else {
17            System.out.println("The ArrayList is empty.");
18        }
19        scanner.close();
20    }
21 }
22
23

```

## Question 2

Correct

Marked out of 1.00

The given Java program is based on the ArrayList methods and its usage. The Java program is partially filled. Your task is to fill in the incomplete statements to get the desired output.

```
list.set();  
list.indexOf();  
list.lastIndexOf()  
list.contains()  
list.size();  
list.add();  
list.remove();
```

The above methods are used for the below Java program.

## Question 3

Correct

Marked out of 1.00

Write a Java program to reverse elements in an array list.

Sample input and Output:

Red

Green

Orange

White

Black

Sample output

List before reversing :

[Red, Green, Orange, White, Black]

List after reversing :

[Black, White, Orange, Green, Red]

**Answer:** (penalty regime: 0 %)

```

1 import java.util.ArrayList;
